Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Reliable Entry-Level Automatic L-Sealer with 17" x 21" Seal Area

Eastey has been a leader in the shrink packaging industry for over 25 years. Eastey Automatic L-Sealers offer the durability and functionality required to efficiently handle a variety of shrink applications.

Eastey's Value-Series Automatic L-Sealers are designed for entry-level and intermediate production that require simple operation, small footprint, or a limited budget. These automatic shrink machines will handle the day-to-day demands required for automatic sealing.

Proven reliable, these intermediate level Eastey Automatic L-Sealers provide you with all the quality features found in much higher priced machines. They are designed and built to give you all the performance features needed for positive sealing a wide variety of films including polyolefin, polyethylene, and PVC.

Standard Features

Designed to seal most polyolefin, polyethylene, and PVC shrink film
All-welded main frame from 12 gauge steel
Normal speed infeed and outfeed conveyors
High-speed with product indexing

Motorized seal height adjustment for various product sizes
Seal head equipped with pneumatic air cylinder for automatic sealing
Hot knife seal bar for consistent and clean seal
Consistent pressure across seal bar
Automatic cycle timing with adjustable dwell time
HMI controller with simple menus for easy operation
Film tracking wheels keep film in place
Multiple pin perforator provides precise air evacuation
Heavy-duty casters for transportation within plant
Leveling legs provide sturdy base once in place
Easy-to-use design requires minimal training and maintenance
17"W x 21"L seal area for packages up to 5" tall
Scrap unwind automatically wraps up the scrap film left from the sealer
Maximum film width up to 22"
Maximum film roll OD up to 12"
80 PSI
Available in 220v
