Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Complete Skin Packaging System

The Heat Seal Ampak skin packaging system is made up of three components: an automatic infeed, the Shipmate skin packaging machine, and an automatic outfeed. For larger formats, the Master skin packaging machine would replace the Shipmate skin machine.

Features

EZ Infeed

- Power and controls from host skin machine
- Soft-start eliminates product movement
- Optional stationary template for loading accuracy and speed

Shipmate Skin Packager

- PLC controls with touch screen access
- Energy saving instant-on Spirad oven
- Variable speed turbine vacuum system

EZ Outfeed

- Protective covers for operator safety
- Virtually maintenance free design

Rotocut Die Cutter

- Bi-flex cutting principle (cutting force concentrated between 2 pressure rolls)
- Powered 6" diameter rigid steel pressure rollers
- Heavy-duty self-aligning roller bearings

Please [contact Pro Pac](#) or call 888-318-0083 for your skin packaging equipment.
