Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

High-Speed Side Seal Automatic Strapping Machine

The Greenbridge PC1500 has the same reliable PC1000 strapping head in a side seal configuration. The side mounting prevents debris from contaminating the seal head. This strapping machine is the most cost effective solution to your strapping requirements in its class.

Features

- Side seal configuration
- Cycle speed up to 60 straps per minute (depending on arch size)
- German DC brush-less motor technology
- Waist high quick-change coil and strap feed
- Easy access operating control panel
- Multiple strap functions
- Easy access strap chute, no tools required
- One piece strap chute
- Sensor controlled heater
- End of coil strap ejector / loop ejector
- Electronic brake / auto loader
- Lockable casters
- Electronic tension control
- Smart LCD display
