Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Low-Profile with No Need for Operators to Attach and Cut the Stretch Film

The Orion LPA low-profile automatic stretch wrapper is designed for loading with a fork lift, electric walkie or pallet jack. Start the wrap with lanyard or remote control.

Orion LPA stretch wrappers eliminate the need for operators to attach and cut the stretch film. Simply place the pallet load on the machine, and pull a lanyard switch while backing away. The machine will perform the entire wrap cycle automatically without the need for an operator to tie the film tail to the load at the beginning of the cycle, and detach it at the end. This will greatly impact the efficiency of your stretch packaging operation by keeping your operators busy with other tasks while the machine is wrapping.

The Orion LPA Low-Profile Automatic system has a 5,000 pound maximum load weight capacity. With an automatic wrap cycle for operator efficiency and a full surround deck to protect the turntable, this wrapping system is meant for the perfect blend of dependability and flexibility.

These stretch wrappers include an automatic cycle to reduce labor, along with a structural steel frame for durability. The structure of the Flex Series is sturdy enough to handle tough production requirements. With an easy-to-load film system, the portable automatic stretch wrapping system, the Orion LPA is the perfect solution for wrapping needs.

Features on the Orion LPA

Automatic wrap cycle for operator efficiency
7" IntelVue color, HD touch screen HMI
15 RPM variable speed with soft start
5,000 lb maximum load weight capacity
Film saving 260% powered film pre-stretch
Automatic force to load for even film tension
AC/VFD motors reduce maintenance
Forklift portable from front or rear
Frame Heavy-duty welded tubular steel frame
63" diameter turntable for loads up to 50" x 50"
Max load height 80" standard, 110" optional
Load with a pallet jack, electric walkie, or forklift
Full surround deck for easier loading
