Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Add 2 or 3 Wrapping Stations to a Single Stretch Wrapping Mast

Orion takes the efficiency of the Flex RT and multiplies it X3 with this unique 3-way rotating stand. Orion offers this option in powered and manual version. While one load is being wrapped, two additional wrapping areas are available for either staging of loads, or storing of wrapped loads awaiting pick up. This option is ideal for applications in warehouses and near loading docks where space is limited, and volume is medium to high.

Please [contact Pro Pac](#) or call 888-318-0083 for your stretch wrapping equipment.
