# Robopac Semi-Auto Compacta SPR Horizontal Stretch Wrappers

## At a Glance

- Securely package semi-finished products using Suspension Packaging Grip
- Max rotation speed: 160 RPM
- Designed to secure semi-finished products for transport or storage

## Pricing

Call us at 888-318-0083

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Roll Suspension Packaging for Semi-Finished Products

Robopac Compacta SPR horizontal stretch wrappers are engineered for safe, secure packaging of semi-finished products placed on cardboard using Roll Suspension Packaging (SPR) technology. This system improves load stability, especially for irregularly shaped items, while maintaining high packaging efficiency.

Enhance your packaging line with the Robopac Compacta SPR. A smart packaging solution for challenging or sensitive products.

**All Robopac Compacta Ring Wrappers** Feature constant film tensioning to improve package integrity and reduce film breaks. Are equipped with safety options that adhere to rigorous CE safety standards.

## Benefits

**Roll Suspension Packaging** Cradles and secures products with minimal movement

**Ideal for Irregular Shapes** Stabilizes uneven or hard-to-wrap components

**Cardboard Support** Products rest safely on cardboard during wrapping

**Compacta Reliability** Built for durability, consistent performance, and ease of use

## Features

**SPG Conveyors** Horizontal motorized roller conveyors ensure the product's correct entry for optimal wrapping.

**Color Touch Screen** Redesigned control panel includes touch screen. The large color screen allows you to create programs quickly and easily. Upgraded memory can now record up to eight different programs.

**Film Carriage Unit** Roll carriage has a direct braking transmission roller and is continuously adjustable. Simplifying roll loading and film insertion, the roll carriage is equipped with locking and quick release.

**Cutting and Clamping Unit** The automatic dual rod clamping and cutting system fully automates the Compacta SPG horizontal stretch wrapping process.
