Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Wrap Windows, Doors, and Large Products

Robopac Orbit 16 horizontal stretch wrapping machines reliably wrap large or awkwardly shaped products such as windows, doors, and other oversized items. Built with advanced automation and a user-friendly design, the Orbit 16 wrapper delivers consistent, high-quality wrapping reducing labor and film waste.

Robopac Orbit 16 wrappers are engineered for manufacturers and distributors who need speed, flexibility, and superior wrapping quality.

Benefits

Perfect for Large Products Spiral wrapping for windows, doors, furniture, and more

Automatic Rotating Ring System Delivers fast, even film application

Pre-Stretch Film Carriage Reduces film use, cuts costs

Auto Cut and Seal Clean, secure package finishes every time

Custom Configurations Wide range of accessories to fit your packaging line

Features

R-Connect R-Connect provides usage and performance data via the cloud. Meet Industry 4.0 demands

with performance monitoring and optimization at your fingertips. R-Connect empowers you with actionable insight to promptly investigate alarms, adjust parameters, improve performance, reduce down time.

Color Touch Screen Create up to eight programs with the large touch screen interface on the Orbit 16 horizontal stretch wrapping machine.

Cutting and Clamping Unit Automatic dual rod clamping and cutting system fully automates the wrapping process.

Film Carriage Unit The film carriage unit has a direct breaking transmission roller, and is adjustable at any time. The roll carriage is equipped with locking and quick release to ease roll loading and film insertion. A motorized friction wheel allows for 100% fixed pre-stretch.
