Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## High Speed, High Performance Orbital Wrappers

Robopac Orbit R rotating ring stretch wrappers spiral wraps elongated products. This Robopac orbital stretch wrap machine is equipped with electro-welded mesh safety guards to protect the operator during operation. Infeed and outfeed units automatically adjust to ensure proper stabilization of the product. Length of the run can be adjusted manually, if needed, to compensate for products of varying dimensions. Highly reliable, dual-rod cut and clamp system fully automates the wrapping process.

## Features

**Touch Screen Control Panel** The seven inch color touch screen provides complete control of all processes with the touch of a finger. Accurate, easy to understand controls are displayed on every screen allowing for quick and simple operation. Store up to 20 unique, user-defined wrapping programs with this orbital pallet wrapper.

**Pneumatic Pressers** Pneumatic drive pressers with automatic settling ensure correct stabilization of the product during wrapping.

**Cutting and Clamping Unit** Automatic dual rod clamping and cutting system fully automates the wrapping process.
