Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Affordable High-Profile Semi-Auto Turntable Stretch Wrapper

The Robopac Robot S7 portable, battery-powered stretch wrapper is designed to deliver flexibility and speed across your facility. The S7 stretch wrapper brings serious performance to your packaging line without being tied to a fixed location.

The Robopac Robot S7 has the ability to wrap up to 30 loads per hour and handle 200–250 standard pallets (40" x 48") per charge.

Benefits

Portable Operation: Eliminate the delays and congestion caused by stationary machines

Flexible Load Handling: Wrap any pallet size or weight (minimum 200 lbs.)

Simple Charging: Plug into a standard 120V outlet

ILS Film Insertion System: Quick, ergonomic film threading

Power Drive Technology: Brushless motors deliver precise pre-stretch with minimal film and energy waste

Supports Sustainability: Optimized for low film consumption and energy efficiency

R-Connect Ready

R-Connect is available for the Robopac S7 stretch wrapper. This interface provides usage and performance data via the cloud, enabling you to meet Industry 4.0 demands by putting performance monitoring and optimization at your fingertips.

Utilization drastically reduces downtime by giving you informational transparency, allowing you to

connect with your machines remotely to investigate alarms, adjust parameters, and respond promptly. This Industry 4.0 innovation empowers you with actionable insight to continuously improve performance, cost savings, and automation.

Features

Control Panel The control panel with color touch screen allows you to create up to 12 programs (+12 with Multilevel Control) in a simple and intuitive way.

PVS Carriage Film carriage with powered stretch system controlled by two independent motors. Stretch ratio adjustable from panel board from 0% up to 500%. No film threading required.

Variable Roping Device The optional Variable Roping Device or (VRD) reduces the width of the film into a cable to strengthen containment of the load.

Please [contact Pro Pac](#) or call 888-318-0083 for your stretch wrapping equipment.
