# Robopac Wrap-N-Weigh Pro Scale Kit for Semi-Auto Turntable Stretch Wrappers

## At a Glance

- Wrap and weigh pallets in one seamless step
- Integrates with all Robopac semi-auto turntable stretch wrappers
- Weigh every load accurately to prevent billing surprises

## Pricing

Call us at 888-318-0083

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Wrap and Weigh Pallets in One Step

The Robopac Wrap-N-Weigh Pro scale kit wraps and weighs pallets in one seamless step eliminating the need for double handling pallet loads.

Wrap and weigh pallet loads simultaneously, saving time, reducing labor, and avoiding costly less-than-truckload (LTL) re-weigh charges. This scale kit is engineered specifically for Robopac semi-automatic turntable stretch wrappers, making it a seamless upgrade for any packaging line.

The Wrap-n-Weigh Pro isn't just about efficiency but smart data utilization. Six load cells collect data from the turntable when the load is placed. Precise and reliable measurements are recorded by connecting your computer to the device.

Upgrade an existing stretch wrapper or invest in a new one. The Robopac Wrap-N-Weigh Pro improves efficiency and accuracy across your packaging workflow.

## Benefits

**Eliminate Double Handling** No need to move pallets to a separate scale.

**Time Savings** Avoid 30–90 seconds of extra labor per load.

**Long-Term ROI** Save \$7,000–\$15,000 in labor over five years.

**Avoid LTL Re-Weigh Fees** Weigh every load accurately to prevent billing surprises.

**Easy Integration** Designed to fit directly into Robopac semi-automatic turntable models.

## Features

- Seamlessly integrates with all Robopac semi-automatic turntable stretch wrappers including the Ecoplat, Masterplat, Rotoplat, and Technoplat.
- This design makes it easier to access and use the scale minimizing potential maintenance issues associated with integrating it into the machine.
- Users can easily access and troubleshoot each component without disrupting the entire system.
- Pallets can be loaded from all sides.

Please [contact Pro Pac](#) or call 888-318-0083 for your stretch wrapping equipment.
