Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Dispense Pallets Automatically

The Wulftec Pallet Dispenser provides automatic dispensing of empty pallets onto pallet handling conveyors or directly onto the floor.

Features of the Wulftec Pallet Dispenser

- Eliminates manual handling of pallets
- Reduces wasted space occupied by short pallet stacks
- Reduces pallet damage caused by careless handling
- Pallet magazine replenished with forklift, resulting in time savings

Specifications

- Stores up to 15 40" x 48" pallets (other dimension available)
- Dispenses the pallet in "easy mode" (narrow side leading)
- Presents one pallet at a time on demand to the work area
- Load empty pallets from outside the work cell without interrupting operation
- Low-level detection
- To be installed over or beside existing conveyor or can be supplied with conveyor
- Pallet loading configurations: Right hand / Left hand
- Pallet traffic photoeyes will be present to determine if an empty pallet is required or not
- Requires 230VAC / 3A / 60Hz
- Air pressure 3CFM @ 80PSI
