Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Double Stack Pallet Loads to Save Floor and Truck Space

The Wulftec Pallet Stacker automatically receives and double stacks pallet loads for better utilization of warehouse racks and truck trailers.

Features of the Wulftec Pallet Stacker

Reduces forklift operation and labor

Increases production speed by wrapping double-stacked loads instead of single loads

Minimizes warehousing square footage

Reduces forklift traffic and load manipulation (less damage to product)
