Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

High Performance Compact Tray Sealer

The Ossid RePack ReeEco Automatic Tray Sealer is the perfect intersection between high performance, low power consumption, and a compact footprint.

The standard infeed conveyor allowing for up to 3 loading positions, easy tooling changeover, and a user-friendly control panel provides the ReeEco a high level of functionality.

The ReeEco does not require compressed air. All of ReePack's automatic tray sealer machines operate using only electricity, excluding any pneumatic support.

Features & Benefits

- Stainless steel design
- Print registration capable
- Quick, interchangeable tooling
- Standard or inside cutting design
- Date coding option

Three Modes of Operation

- Ambient
- Modified atmosphere packaging (MAP)
- Vacuum skin pack (VSP)
