Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Customizable Multi-Lane Tray Sealer

The Ossid RePack ReeMatic tray sealers have a multi-lane tray loading conveyor that is customizable.

The ReeMatic 150 Automatic Tray Sealer has a multi-lane tray loading conveyor customizable from 1 to 6 tracks. The ReeMatic 250 Automatic Tray Sealer has a multi-lane tray loading conveyor customizable from 1 to 4 tracks.

The tray transport system is driven by pusher rods guiding the trays down the line in a step by step movement, leading onto the defined die-set position.

Servo driven motors and electrical die-set vertical motion makes for fast and efficient packaging output.

Features & Benefits
