Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

The General Packaging Entrada E2 lower-cost VFFS bagger fills the need where more expensive equipment cannot be justified. The Entrada E2 is an air-operated drawbar VFFS bagger patterned after General's rugged 70C and 80C hydraulic models. This bagger even shares some of the same parts with these long-proven models.

Entrada Model E2 Drawbar VFFS bagger produces packages with a maximum width of 6" (152mm) and maximum length of 10" (254mm).

Features & Benefits of the Entrada E2

Easy access for maintenance and adjustments
Draw bar is powered by a motor driver gear reducer
Simple crank to easily adjust for bag length changes
Spare cams and switches for emergencies
Solid state temperature controls: C Model
Impulse sealing with built-in cooling: P Model
