Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

The flexible Simionato Logic C VFFS bagger has a modular design for rapid format change to produce a large range of bags types including D-bag, quad pack, flat bottom, tucked gusseted, and pillow.

High-speed intermittent-motion and stepper motor driven pull belts provide precise film control.

Features & Benefits

Stepper motor film advance
Self-centering pull belts
Environmental protection with fully enclosed construction
Quick film change with pneumatic spindles
Vacuum assisted splice table for quick film change
Compact film path with adjustable film tensioning
Low film and film runout detect
Laterally adjustable backseal
Easy setup via user-friendly HMI with interactive graphics
100 recipe memory plus 10 protected passwords
Real time parameter adjustment
Automatic film tracking
Photo eye registration
Encoder for precise control of bag length
Alarm history
Anti-bridging device at the entrance of forming tube

Types of Bags

Pillow
Flat bottom
Quad pack: flat bottom 4 side sealing
Doy pack
D-Bag: no top fin
2 Sided tucked (gusseted)
Re-closeable

Production Rate

Up to 100/105 bags per minute

Package Width Range

Logic C35: 2.16" to 11.81" (55mm to 300mm)
Logic C22: 2.16" to 7.87" (55mm to 200mm)

Options

Gas flushing
Polyethylene sealing
Anti-static system
Heated punch for euroslot
Tear notch for easy vertical/lateral opening
Printers
Metal detector
Product settling device at the entrance of the forming tube
Lower flap folder (heated or not-heated)
Stainless steel available
Ethernet connectivity
