Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

The Hayssen Ultima SVJ has a long-standing reputation as a solid, durable model of Hayssen VFFS machines.

The Ultima SV's servo-driven system features off-the-shelf Allen Bradley Panelview 1000+ operator interface with Allen-Bradley control system. Sealing systems for laminate and polyethylene packaging materials can be customized to meet your application requirements. Higher sanitization features are available.
