Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Produces Four-Side-Seal Sachet for the Many Industries

The compact, modular, and robust Matrix INVpack MVA3 is a servo driven VFFS multi-lane packaging machine that produces flat sachets.

The Matrix INVpack MVA3 EVO creates 4-side seal flat sachets for liquids, powders, granulates and pasty products. Built to work with reels up to a 300 mm width, it is designed for low-to-medium production outputs which require high-quality sealing.

Output ranges from 70 stickpacks per minute for a one-lane operation to 280 per minute with four lanes. Widths range from 150 mm for a one-lane operation to 40 mm for four lanes. Sachet lengths range from 40 mm to 150 mm.

The Matrix INVpack MVA3 EVO is designed for dosing applications such as: powders, granulates, solids, liquids and pasty products. The MVA3 serves a variety of markets including the food, cosmetics, chemical and pharmaceutical industries.

Sachet production is very flexible. The MVA3 forms sachets with two different compartments already pre-cut (twin) as well as a variety of shapes. Changing the sachet length is simply done through the touch screen.

Features & Benefits

Small footprint

Unwind system with integrated auto-alignment

Splicing table
 Film compensator
 Adjustable vertical cutting blades
 Powerful horizontal sealer
 Powder fillers assembled in a mobile platform for cleaning
 Touch screen panel
 PLC control
 Can package liquid, pasty, granulated, powder or solid products

Options

Integrated coding systems (Laser, Inkjet, TTO)
 Tear notch
 Gas flush
 Vacuum assist
 Diamond seal end-cut

MVA3 EVO Specifications

	1 Lanes	2 Lanes	3 Lanes	4 Lanes
CPM	70	140	210	280
Packet Width (mm)	40 - 150	40 - 75	40 - 50	40 - 40
Packet Length (mm)			50 - 200	
Max Film Width (mm)			300	
Max Roll OD (mm)			300	
Roll Core OD (mm)			70 / 75	
Machine Weight (kg)			550	
Noise (db)			<70	
Electrical		220, 400, 440, Vac / 3Ph+N+PE / 50,60Hz		
Air Pressure			6 bar
