Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Compact On-Demand Paper Dispensing System

The Sealed Air FasFil Jr innovative, compact paper void-fill system is built for medium-volume shippers and pack stations. This compact paper void-fill system provides flexible installation and customizable paper lengths for quick packing.

**Compact, Versatile Design** FasFil Jr fits any pack station with tabletop and floor stand options, designed for easy paper loading.

**Custom Paper Lengths** Customizable void-fill paper lengths and multiple modes make packing efficient at the push of a button.

## Versatile Simple Paper Loading

This versatile paper void fill system can be installed in seconds and offers flexible mounting options, including tabletop or floor stand. The FasFil Jr is designed to swivel for easy paper loading and features multiple operating modes, such as cut-and-hold or manual, to provide custom paper lengths on demand. With integrated anti-jam sensors and one-touch reset, this system ensures maximum uptime.

Available in natural kraft or bleached white paper, the Sealed Air FasFil Jr helps optimize your packing operations while supporting sustainability efforts with curbside recyclable materials.

## Features & Benefits

Integrated anti-jam sensors and one-touch reset for reliable uptime  
Tabletop or floor stand mounting options to fit any pack station

Customizable void-fill paper lengths at the push of a button  
Swiveling design for fast and easy paper loading  
Uses 100% recycled kraft or virgin white paper, both curbside recyclable

## FasFil Jr Paper Material

The FasFil Jr system uses fanfold paper, available in both natural kraft made from 100% recycled paper and white fanfold paper made from virgin pulp. These paper materials are curbside recyclable, making them an eco-friendly option for void fill in packaging.

## FasFil Jr Pack Station Efficiency

The FasFil Jr system enhances pack station efficiency with its compact size and versatile installation options, including tabletop or floor stand mounting. Its automated void-fill machine provides custom paper lengths on demand and features integrated anti-jam sensors, ensuring uninterrupted operation and maximum uptime.
