Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Paper Cushioning Void Fill On-Demand

The Sealed Air paper void-fill solutions are ideal for small pack stations.

Sealed Air paper pack stations are fast and easy. Sealed Air kraft paper is responsibly sourced from 100% recycled paper packaging material and is curbside recyclable. Ideal for work cell or small-volume fulfillment operations, these paper void-fill solutions accommodate a variety of packaging needs. Models include the Sealed Air FasFil M, FasFil Mini, and FasFil Jr.

Features & Benefits

15-inch void-fill paper protects against damage in a variety of applications.

Kraft fanfold paper is made with 100% recycled paper packaging material and is curbside recyclable.

White fanfold paper is made with 100% virgin paper pulp and is curbside recyclable.

Sealed Air paper is FSC certified and certified to Sustainable Forestry Initiative (SFI) standards.

Fanfold paper is available in 3 different basis weights.

Paper design minimizes waste by reducing the amount of material needed for protection.

FasFil Jr.

The Sealed Air FasFil Jr. is a full-featured paper void-fill system specifically designed for pack station needs. Ideal for medium-volume shippers, this compact, powered system can be installed in seconds for maximum uptime. Mounting options include table-top or optional floor stand. The entire unit swivels for quick and easy paper loading. Multiple operating models include cut-and-hold or manual mode and custom pad lengths are available at the push of a button. This system offers integrated anti-jam sensors and a onetouch reset.

Features & Benefits

Compact size allows for easy placement in pack stations.

Mounting options include tabletop or optional floor stand to best fit any pack station setup.

Multiple operating models include cut and hold or manual mode.

Entire unit swivels for quick and easy paper loading.

Custom pad lengths are available at the push of a button.

Has anti-jam sensors and a one-touch reset.

Paper bundles are available in natural kraft or white.

Tabletop Model Dimensions

32"L x 18"W x 45" to 55"H

Model with Floor Stand Dimensions

32"L x 18"W x 72" to 83"H

FasFil M

The Sealed Air FasFil M is a manual paper void-fill dispenser that installs in seconds and requires no power to operate. It can be used with the FasFil Mini by removing the perforated box sections and placing the box of fan fold paper on the FasFil M dispenser to start packing. It's ergonomically designed with packers in mind. The easy cut-and-tear process allows for single-handed operation. The unit holds the paper packaging material above the work surface to optimize the entire pack station space. The included height-adjustable stand can be extended so the dispenser can fill tall boxes or be lowered so the entire unit can fit under shelves if needed. It can also be mounted directly onto a shelf or a work bench with screws or with a clamp.

Features & Benefits

Versatile system height and swivel options can be tailored to best fit any packing operation.

Easy cut-and-tear process allows for single-handed operation. Paper bundles are available in natural kraft or white.

Dimensions

19"L x 16"W x 23" to 32"H

FasFil Mini

Sealed Air FasFil Mini is individually boxed fanfold paper dispenser that doubles as a convenient shipping container. This compact solution is ideal for low-volume shippers or small ship-from-store operations. Once the void-fill paper is depleted, the entire carton can be recycled in mixed paper collection streams. The box can be used alone or with the Sealed Air FasFil M dispenser by removing the perforated box sections and placing the box of fanfold paper on the tabletop dispenser to start packing.

Features & Benefits

Doubles as a convenient void-fill dispenser and shipping container.

Use in conjunction with the Sealed Air brand FasFil M to mount above pack station.

Entire empty carton can be recycled in mixed paper collection streams.

Paper bundles are available in natural kraft or white.

Kraft Paper Specifications

30#: 10" paper: 16" x 10 5/8" x 10 1/4"

35#: 11" paper: 16" x 11 7/8" x 9"

White Paper Specifications

30#: 15" paper: 15" x 1,600' bundles
