Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

High-Protection, Sustainable Heavy Cushioning

The Sealed Air ProPad Coiler Paper Winding System is an accessory to the Sealed Air ProPad paper cushioning system that allows hands-free creation of durable, curbside-recyclable coiled paper pads.

Industrial and fulfillment companies need sustainable alternatives to foams and films, without compromising performance required to protect such items as automotive, machinery, appliance, and HVAC parts.

The ProPad Coiler creates efficiency and versatility in packaging operations through batched coils, easy size and density change over, and on-demand coiling — all from the same system.

Benefits

Operational Efficiency Generates time and efficiency savings over coiling paper pads by hand Enables batched coils for efficient transport by cart to pack stations Changes coil size and density via intuitive touch screen Sequences coil widths and densities for consistent product packouts Saves time for operators because coils are secured upon creation

Product Integrity Offers robust cushioning protection for industrial packaging environments Cushions a wide range of products, from a few pounds up to hundreds of pounds

Package Optimization

Ensures right coil specifications for a wide range of SKUs by easily adjusting coil density and width

Brand Experience

Can improve sustainability profile with 100% curbside recyclable paper-based coils

Sustainability

Robust paper coils replace less sustainable packaging in automotive, machinery, and appliance markets

All output coils are 100% curbside recyclable

Applications

3rd party logistics, fulfillment centers

Aftermarket industrial parts

Automotive

Electronics

Industrial supplies

Warehousing and transport

Material

Engineered for use with Sealed Air brand 29" (73.5 cm) width paper FanFold and Rollstock (1 and 2 ply)

Creates a range of paper coils wound 12" - 24" (30.48 cm - 60.96 cm) in diameter, adjustable every 1" (2.54 cm)

Weight of paper coil: 7 lb (3.2kg)

Three coil densities available

Available in natural kraft

All output coils are paper based and 100% curbside recyclable

Equipment

The ProPad Coiler must be used with the ProPad base unit

Footprint: 71"L x 44.5"W x 75"H (180 cm x 113 cm x 190.5 cm), including ProPad base unit

Weight: 340 lbs (154 kg)

Paper Coils: 12"-24" (30.48 cm - 60.96 cm) in diameter

ProPad FanFold cart and coil bin accessories available

Specifications

Weight: 340 lb (154kg)

Footprint including ProPad system: 71"L x 44.5"W x 75"H (180cm x 113cm x 190.5 cm)

Electrical: 115 VAC, 50/60 Hz, Single Phase, 15A and 230 VAC, 50 Hz, Single Phase, 10A

Certifications: CE, TUV and PSE Approved
