Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Gentle Weigher to Handle Fragile Products

The Ishida SE Series is perfect for introducing multi-head weighing to your production line for faster, more accurate fixed-portion weighing.

Features of the SE Series Weigher

Streamlined specification for simple operation still exceeding the performance of conventional multi-head weighers.

An array of additional features to choose from designed and manufactured individually on your request.

Thorough support and guidance for every step of the process including quality checks before delivery and a 24-hour service system post-delivery.

An efficient, meticulously-designed system that can be easily coordinated with the rest of your production line.

Please [contact Pro Pac](#) or call 888-318-0083 for your weighing, filling, and counting equipment.
