Ishida CCW-RV Large Volume Multi-Head Weigher

At a Glance

- Up to 100 wpm
- Certified IP69K rating
- Designed for harsh cleaning routines

Buy your [VFFS Film](#) from us, and get a discount on this Ishida weigher!

Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Even Faster and More Accurate than Before

Through the combination of software and hardware enhancements, the RV series is faster than ever before. More effective feeder vibration optimises product distribution and speeds up weigh-head stabilization, bringing greater speed and accuracy. Faster filtering reduces settling time and readies more heads for inclusion in the calculation, while improved hopper opening and closing cycles reduce the time taken for product transfer.

Water Resistant, with Reduced Cleaning Downtime

With an independently certified IP69K rating, the RV waterproof model is proven to be more water resistant than ever before. Newly designed fluorine diaphragms, silicon or EPDM (ethylene propylene diene monomer) rubber gaskets combine with new machine fixing patterns to achieve this. The main body has been designed with a 9° slope and 6° slope on the radial feeder cover, so that fast washing is followed by rapid draining and drying.

Reduced Power Consumption

On full power, RV weighers use 20% less power than recent models. There are also half power and eco modes, the latter offering a 50% saving by comparison with full power. Eco mode works well with free-flowing products and is the default when speed is not prioritized.

Improved Interaction, Locally and at a Distance

Ishida's new autosetting feature makes setting up for a new product much simpler, while the ability to control the weigher from laptops and hand-held devices increases operator freedom. With secure,

firewalled access possible from any part of the world, production information becomes more accessible and useful to your organisation, and you now have the option of remote support, including diagnostics from Ishida. A wide-angle camera for the top of the weigher and an additional RCU are also available as an option.

Compliant with Strict Industry Standards

All materials, including those used to increase design robustness under harsh cleaning routines, are FDA-approved and comply with Article 16 (1) of Regulation (EC) No 1935/2004, and Article 15 of Regulation 10/2011. To fully meet the EU's Restriction of Hazardous Substances Directive (RoHS) non-hazardous materials have been used for all circuit boards, parts, materials and finishes.

Specifications of Ishida CWW-RV Multi-Head Weighers

	CCW-RV-214W-1S/50-SS/WP		CCW-RV-214W-1S/70-SS/WP	
Head Capacity	Up to 2000g	Up to 4000g	Up to 2000g	Up to 4000g
Max Single Dump	10 litres		14 litres	
Max Speed	100 wpm		95 wpm	
Min Graduation	0.5g	1.0g	0.5g	1.0g
Touch Screen	12.1" color LCD display			
Weigh Cell	Double-beam load cell			
Presets	200			
Material	Stainless steel product surfaces and other sanitary materials			
Machine Weight	Approximately 1000 kg			
Body Structure	IP50(SS)/IP67, 69K(WP) Rating			
Air	110 litres/min (ANR) 0.5 Mpa Air hose - PT 3/8" (for dryer connection)			
Power	200 - 240V 50/60Hz, 0.5kW
