Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

Economical Easy-to-Use Weigh Scale

The dependable Weigh Right iQ-1E entry level scale can weigh 5 grams to 5 pounds of free flowing products such as coffee beans and ground coffee, small nuts, rice, grains, spices, small candies, teas, popcorn and similar products.

The iQ-1E brings a robust design, self-adjusting controls, and smartly designed touch screen interface, to provide you with ease-of-use and dependability to package your products.

Features & Benefits

For food and non-food applications

Self-adjusting controls optimizing speed and accuracy

1 oz to 10 lb capacity

Touch screen interface

Digital processing

Semi-automatic and fully-automatic models

No change parts needed when filling from 1 ounce to 5 pounds

Air compressor comes standard allowing for single button start-up

Load cell is encased to protect against dust and water damage and has 800% overload protection

All contact parts are stainless steel

Weigh bucket disconnects easily for cleaning

Accuracy from 0 to .01 pounds over

Off-the-shelf parts for easy maintenance and local service worldwide

Menu-Driven Control Interface

Touch screen, menu driven controls for easy set-up

Self adjusting controls allowing the scale to optimize speed and accuracy

50 job memory storage allowing for quick recall of product settings

Batch counting so you can stop the scale after a set amount of packages

Set-up in pounds, ounces, grams, kilograms or by piece-count (utilizing weigh count technology)

Auto-zero tares the weigh bucket after a set number of cycles to account for product build-up

Auto-dump cycle keeping the operator on their toes or to interface with automated equipment

Production Rates

1 oz to 4 oz: 20 fpm

8 oz to 1 lb: 15 fpm

2 lbs to 3 lbs: 10 fpm

3 lbs to 10 lbs: 4-6 fpm
