Many options are available. Complete details will need to be finalized to determine requirements and final system costs. Work with your Pro Pac representative to build this machine to your specifications.

## Fruit Fillers for Retail Size Packages

The Weigh Right PMB-1F and the PMB-2F weigh and fill 4 to 40 ounces of fresh-cut fruit such as melon cubes, pineapple chunks, apple slices, diced tomatoes and small whole fruits like grapes and strawberries.

PMB-F systems offer gentle handling, dropping the fruit no more than 4" at any one time.

The product is vibrated into the weigh bucket using the bulk and dribble method. 98% of the desired weight is quickly vibrated into the weigh bucket and the last 2% is slowly fed into the weigh bucket using the dribble tray which singulates the last few pieces for an accurate weight. Once the desired weight is met, the product is gently and quickly ushered out by a push plate to ensure a clean discharge into the tray, bag or tub.

IQF Fruit

## PMB-1F and PMB-2F Retail Fruit Fillers

The PMB-F will weigh and fill 4 to 40 ounces of fresh-cut fruit into bags, trays or tubs.

Container can be hand placed by an operator or the PMB-F can be designed to fit over and interfaced with an automatic bagger or indexing conveyor to feed into trays or tubs.

Wash down construction, dimpled textured vibratory trays.

Uses non-proprietary washdown touch pad controls to enter desired weight and feed rate.

## Weights and Rates of Fresh Fruit Scales

| Retail Fruit Fillers |        |        |        | Food Service Fruit Fillers |        |        |        |
|----------------------|--------|--------|--------|----------------------------|--------|--------|--------|
| PMB-1F               |        | PMB-2F |        | BDC-1                      |        | BDC-2  |        |
| Weight               | Rate   | Weight | Rate   | Weight                     | Rate   | Weight | Rate   |
| 4 oz                 | 12 fpm | 4 oz   | 24 fpm | 8 oz                       | 12 fpm | 8 oz   | 24 fpm |
